**Covid 19, Corona & Wuhan Virus Update, 03/18/20**

**Dear Ladies & Gentlemen,**

**School children have “Snow Days” yet furnace repairmen never do.**

**While America and the world are shutting down and retreating to safety, we will not.**

**Our Brothers and Sisters in the critical trades are the one's responsible for public safety.**

**Shippers, Merchant Marines, Railroaders, Longshoremen, Teamsters, Linemen, Plumbers, Nurses, Doctors, Paramedics, Firefighters, Police Officers, Towing Operators, Countless Utility and Infrastructure Skilled Tradesmen & of course, the HVACR & Plumbing Professional's, are all out and working, to ensure that the USA, is just fine.**

**We don't shy away from the dirty, dangerous or difficult. We embrace it, we do it daily.**

**Our crews are on the road, with papers from Homeland Security authorizing us to do our jobs, to ensure that the critically needed facilities and utilities are available to “ALL”.**

**Rest easy folks, between God & our professional HVACR crews, we've got this!**

**Stay in bed, enjoy your warm shower, your working plumbing, your fresh water and clean air. Relax, the power, the heat, the phone, the internet, the cable and the refrigerator are all still working. Also, the refrigerated cargo containers, the warehouse freezers, the nursing home ventilators and the hospital HVAC systems, the 911 dispatch centers, the Computer facilities and the fiber optic telecom infrastructure that everyone depends upon. You can still use your GPS to navigate and your phone to shop or play games with.**

**Our crews have the PPE, the Tyvek suits, the respirators, the gloves, the safety shields, the closed environment and fall safety equipment, the back up generators, dewatering pumps, sewage machines, cleaning, sanitizing and other specialized equipment for any messy job.**

**We look after you, 24x7x365, often leaving and returning in the darkness. It's what we do!**

**Enjoy some chicken soup, cuddle up with your puppy and take a nap. We're on it!**
